## WHAT TO WEAR ON YOUR WEDDING DAY?

### *Our style guide*

Whether it is a mark of new beginnings or celebrating the lives of loved ones, dress for the occasion in a look that is meant for the memorable moments. An admirable sartorial statement, full of character – all yours.

Before selecting wedding attire, the most important thing to consider is, of course, the dress code. Black tie is probably the most straightforward, but 'black-tie optional' or casual may be a touch more difficult. Use this guide to find clarity and summer inspiration for the most widely used dress codes.

# THE DRESS CODES

## *White tie*

The most formal dress code of all, white tie requires a morning coat with a white shirt, waistcoat, tie or bow tie, and formal footwear like Oxford or Derby shoes. Some may choose to take it a step further by adding grey gloves and a black or grey top hat.

## *Black tie*

Usually implying an evening event, the tuxedo is standard attire when it comes to black tie. Traditionally combined with a white shirt, black bow tie and black patent leather Oxford shoes. In summer, a white dinner jacket with black tuxedo trousers is also common.

## *Black tie optional or formal*

This is usually the same as black tie, with the option of branching out from the traditional tux into other colours and formal suits. You can wear a full tuxedo or opt for a suit in timeless hues with a white shirt and tie.

# THE DRESS CODES

## *Semi-formal*

Offering the most flexibility in terms of comfort, semi-formal can include a classic suit and tie or even a shirt and trousers, as long as the overall look does not read as casual. Choose lighter colours and fabrics in summer, especially for daytime weddings.

## *Destination*

Tropical or destination weddings are usually warm affairs. Stick to suits in breathable fabrics like cotton or linen in lighter colours with a light shirt and a pair of loafers. If temperatures are extremely high, you can ditch the jacket entirely.

## *Festive*

A relatively new dress code, festive gives you permission to have fun with your look. For example, pairing a pastel suit with playful accessories, like a printed pocket square or a unique tie.

## TIPS & TRICKS

We have seen plenty of weddings in our time. Here is our advice to ensuring your day goes off without a hitch.

- Begin four months before your wedding date to give you enough time to explore your options, receive your garment and make any last adjustments.
- Let your groomsmen know what to wear, as well as where and when to get fitted.
- Opt for more relaxed, light and breathable fabrics for hot summer days.
- Get an extra shirt. Even a small stain can ruin your photos. Regardless, a fresh shirt for the second part of the day is always a good idea.
- Set time aside for your styling. Finding the right shoes, tie (or bow tie), pocket square, socks and cufflinks takes time.
- Wear in your shoes before the big day. Comfort is key to enjoying yourself.
- The groom doesn't wear a watch. Your only focus should be having fun.

# THE PERFECT WEDDING SHIRT

Ensure your shirt fits you well and feels comfortable. Whatever choice you make, a custom-made dress shirt is essential to looking your best on the big day.

The most important thing is to select a shirt material that is airy and breathable. For a celebration in the morning or afternoon, you can't go wrong with an off-white hue. However, when it comes to black-tie wedding attire, there is no negotiating the colour of your shirt. It must be white and crisp.

Then you can start to play with your design and details like mother of pearl buttons or studs to match your cufflinks. If you are crafting a tuxedo shirt, a pleated or pique bib front has a certain traditional appeal while a hidden placket is a more modern look that will hide your buttons completely.

# WAISTCOATS

Choose a matching waistcoat in the same fabric as your 2-piece suit. Or mix things up with a vest that stands out from the rest of your suit – in a complementary colour, of course.
